Director of Medical Ethics and Medical Humanities

Paul R. Sanberg, PhD, DSc
Associate Vice President of Research & Innovation
Distinguished University Professor and Director Center of Excellence for Aging and Brain Repair
Vice Chair of Neurosurgery and Brain Repair

Shankar Sundaram, PhD
Director of Bioengineering Center
Draper Laboratory

Moderator
Barry B. Bercu, MD
Chair of USF Biomedical Institutional Review Board
Professor of Pediatrics, Molecular Pharmacology and Physiology, and Molecular Medicine
Guest Speaker

Alfred G. Gilman, MD, PhD
co-founded Regeneron Pharmaceuticals, Inc and is currently the Chief Scientific Officer of the Cancer Prevention and Research Institute of Texas.

He served as Executive Vice President for Academic Affairs and Provost at the University of Texas Southwestern Medical Center in Dallas as well as Dean of Southwestern Medical School.

Dr. Gilman is an American biochemist who shared the 1994 Nobel Prize in Physiology or Medicine with Martin Rodbell for their discovery of G-proteins and their role in signal transduction within the cell.

He received a Bachelor of Science degree summa cum laude in Biochemistry from Yale University and his Doctor of Medicine and Doctorate in Pharmacology degrees from Case Western Reserve University in Cleveland, Ohio.

Dr. Gilman has been the recipient of many awards including the American Heart Association Basic Science Research Prize in 1990, American Cancer Society Medal of Honor in 1995, Albert Lasker Basic Medical Research Award in 1989, and The Gairdner Foundation International Award in 1984.
