This program is designed to benefit Physicians, Nurses, Nurse Practitioners, Physician Assistants & Clinical Pharmacists

Course Description
Program sessions integrate the most current scientific and clinical information and incorporate case-based learning methods. A discussion period after each presentation will be used to clarify and debate issues. Participants will also have the opportunity to visit industry exhibits.

Learning Objectives
Upon completion of this program, the participant should be able to:

- Formulate and integrate an evidence-based approach to key clinical challenges in hospital medicine.
- Acquire diagnostic and management skills relevant to improving the care of the hospitalized patient.
- Implement optimal team-based strategies to promote systems changes and quality improvement.

“The best hospitalist symposium – wide range of topics & compelling speakers!”
- Past participant
