OUTCOMES MEASUREMENT WORKSHEET

Program Date: ______________  Program Name: ____________________________

Name: ____________________________________________

Presentation Title: ____________________________________________

Items requested below will be used to formulate the pre/post test and post-event survey for this activity.

PART 1 – LEARNING OBJECTIVES

Reminders:
- The goal of the learning experience is direct application of knowledge to the practice setting.
- Use behavioral verbs (i.e., implement, apply, demonstrate, use, diagnose, analyze, etc.)
- Explicitly describe what participants should be able to DO in their practices as a result of your presentation.

“At the conclusion of this activity, the participant should be able to...” (Please list 1, 2, or 3 learning objectives for your talk.)

1. ____________________________________________________________________
2. ____________________________________________________________________
3. ____________________________________________________________________

PART 2 – CONTENT QUESTIONS

Please list 2 multiple-choice questions that will test participants on the content of your presentation.

1. ____________________________________________________________________
   - Answer options (place an asterisk next to the correct answer):
     a. ____________________________________________________________________
     b. ____________________________________________________________________
     c. ____________________________________________________________________
     d. ____________________________________________________________________

2. ____________________________________________________________________
   - Answer options (place an asterisk next to the correct answer):
     a. ____________________________________________________________________
     b. ____________________________________________________________________
     c. ____________________________________________________________________
     d. ____________________________________________________________________
PART 3 – CASE STUDY

Based on the content of your presentation, please submit a **brief** case study below and finish by asking the participants what treatment decision they would make in this situation (using a multiple-choice question).

Case Study:

Question for Participants (place an asterisk next to the correct answer):

3. ________________________________________________________________

- Answer options (place an asterisk next to the correct answer):
  a. ________________________________________________________________
  b. ________________________________________________________________
  c. ________________________________________________________________
  d. ________________________________________________________________
